Carlisle, Ky., March 22.—A band of masked and heavily armed night riders shot and killed Hiram Hedges at the doorstep of his home, where he stood and pleaded with them to go away, about 1 o'clock. According to the statement of C. H. Hedges, son of the murdered man, there were about seventy-five men in the party.

Young Hedges says that he was awakened by some one throwing rocks against the house. His father came into his room, carrying a shotgun and said: "Son there are too many of them out there for me to fight." The two then went to the front door, the father leaving his gun. He opened the door and inquired of the men what they wanted. He was told to step out on the porch, which he did. They then ordered him to come out onto the steps and he again complied. "I want to say to you he said, "that I have never done anything but what was right toward the society. I have planted one bed and intended planting another, but if you will go away and do no harm I will plow up the bed I intended planting and never put canvas on the other. It may be a joke you coming here, but I wish you would go away."

At this juncture, a shot was fired.

Hedges cried, "I am shot," and staggered back into the house. His son put him on a bed and returned to the door. One of the riders asked "Where's the old man?" "He is shot," replied the young son. Several exclaimed that they did not believe it. Young Hedges asked some of them to leave their gurs and come in and see. Six of them came to the house, three entering and the others standing guard at the door. Those who entered came out and reported that Hedges was shot. The gang then road away up the Lexington and Maysville turnpike.

Hedges never spoke after being placed on the bed and died about 2 o'clock. He received a charge of No. 6 bird shot in the left side.

In Other Bluegrass Counties.

As the result of a warning, J. H. Nichols, a prominent farmer of Bourbon plowed up his tobacco bed and declared he would raise no tobacco. The warning which was found tacked on his barn, was burned around the edges and spotted with red ink, indicating fire and blood, and read as follows: "Unless you destroy your tobacco bed, hell will be to play."

Night riders in Mercer visited the farm of Judge B. F. Roach, near Harrodsburg, and tore the canavas from two tobacco beds. The beds were torn up so that it will be impossible to get plants without resewing, and this, Judge Roach declares, will not be done. The beds had been sown by a tenant on the farm.

Oscar V. Fry, superintendent of the S. W. Booker farm, Shelby county, which is located near the scene of the burned Ellis home, has signified his intention of resewing the farm. Mrs. Fry came to Eminence this morning and Mr. Fry will follow her shortly. All the negro hands and tenants on the farm left the place immediately after the burning of the Ellis home.

AX GRINDING VS. BUSINESS.

Municipal Ownership in Practice Seen

Through the Eyes of a Grand Forks Citizen.

An article on the gas situation in Grand Forks, N. D., Light quotes F. J. Janey, a prominent real estate man of that city, as follows:

"As a real estate man and a member of the real estate board I did not vote at the recent meeting of the board for the issue of the \$2,000,000 bonds for the purpose of buying the gas plant, and I stated at that time to the board that I was opposed to the ownership by the city of the gas plant.

"There is no question that there are many of our city utilities already managed and operated by a committee of the city council. Our experience with the water business as it is managed by our council committee is not one which would make it desirable for us to place any other utility in the hands of another such committee.

"The council committee is grinding their axes and making use of it for their political interests, whereas a private corporation has dollars invested and looks at it only in the way of a business enterprise, which it is willing to push in any way where it can see an increase of income. One is using it for influence and the other to earn dividends.

TWO MINUTE SKETCHES

Christopher Columbus.

By J. A. EDGERTON.

He met rebuff after rebuff, but would not give up his dream.

FOR eighteen years Christopher Columbus cherished the dream of finding land to the west. This time was spent in ineffectual attempts to get money for the undertaking. Almost every sovereign of Europe was appealed to in vain. Poor, friendless, almost alone, regarded by men as insane, Columbus went off after rebuff, but would not give up his dream. Finally he appealed to Ferdinand and Isabella of Spain. Ferdinand was not convinced, but Isabella was more favorably inclined and in the end would let him go pawn her own jewels for the voyage.

With the fitting out of his expedition the troubles of the great discoverer were not ended. When twenty days or more out in an unknown sea, his sailors began to murmur, urging him to turn back. At last the mutiny became so strong he had to give in. Still the bold navigator would not give up. Quelling the mutiny with whatever measures were necessary, he promised a reward to the first sailor who discovered land. At last the voyage was ended, and a goal greater than he himself knew was reached.

In this history there are few more inspiring examples of faith than that of Columbus. He had only his own ideal to support him. Every one else doubted it. Nearly a score of years passed, in which every attempt to realize his dream met with failure. It is wonderful that he could not give up his dream. He was a failure if not to remove mountains, at least to bring new worlds into view. So great were his troubles that they made him white headed at thirty. They pursued him even to the end of his life. At one time he was thrown into prison. At nearly all times he was poor, and often stood. Saddest of all, he died without knowing that he had found two new continents and that his humble trip across the sea would open a new era in the history of mankind.

Columbus was of a genuinely religious nature, which may account for much of the trustful faith he had in his own inward promises.

Gentleman is from the French "gentilhomme" and means one who belongs to the nobility or stock. In old Roman law, gentlemen, or gentillemen, were those only who had a family name, were born of free parents, had no slave in their ancestral line and had never been degraded to a lower rank.

Kentucky's Disgrace.

The Louisville Post's poet-cartoonist gives pictures of several nice riding and follows them with these verses:

They were bred in Old Kentucky,
Where they scrape tobacco beds,
Where they burn the barns at midnight.
And the horsesteppos' o'er your heads;
They were bred in Old Kentucky,
Bear it boy, you're sure unlucky!
If they catch you with tobacco in your shoes.

They were bred in Old Kentucky,
Where they raised tobacco some,
Until those gay night riders
Put the raisin' on the bum;
Now they raise in Old Kentucky

STATE FAIR CAUSES

BETTER FARMING METHODS.

To Win Prizes and Reputation Farmers Are Preparing to Raise Bigger and Better Crops than Ever Before.

Nashville, Tenn., March 20.—From the reports coming into the State Fair headquarters from all over Tennessee the prospect for keen rivalry among the farmers is even better than it was at this time last year. From every part of the State comes the news that the most progressive farmers are making preparations to raise such crops as will be worth entering and will stand a chance of winning premiums at the 1908 State Fair.

Maj. T. J. Key, editor of the Southern Agriculturist, who will again have charge of the miniature experiment farm on the Fair grounds, says that never before have farmers taken such an interest in fine seeds and in improved live stock as they are taking now. In arousing this interest the various county fairs and the State Fair have played a potent part.

It is this educational element of the Tennessee State Fair that is getting the most careful attention of the officials. Their idea is that the first purpose of this exhibition is to help teach the farmers of the State how to get the best possible results from their lands. There is no better means to this end than for the men and women who have done well to come and show what they have done and how they did it. To encourage Tennessee farmers to do this—to co-operate with the Fair management in making this educational feature effective—the Association and the State Legislature offer liberal prizes for the best displays—prizes well worth working for.

It is largely because of the number who intend to compete for these awards—and the reputation that goes with winning them—that a distinct improvement in farming methods has been noticed throughout the State.

Terrible Eczema—Head Became

Much Money Wasted in Frustrous

CURED AT SLIGHT COST BY CUTICURA REMEDIES

"Our little girl was two months old when she got a rash on her face and within five days her face and head were all one sore. We used different remedies but did not get any relief and we thought she would turn blind and that her ears would fall off. She suffered terribly and the sores became until the blood came. At night we had to pin her hands down. This went on for six weeks. Then I had her under our family doctor's care, but she continued to grow worse. When she was seven months old I started to use Cuticura Soap, Cuticura Ointment, and Cuticura Liniment. I used Cuticura—what a change! I kept using the Cuticura Remedies for two months and could see a sign of a sore and she was as fair as a new-born baby, and all for the small cost of a dollar and a half. I have since spent on times the money for doctoring. She is now two years old and has not had a sign of a sore since. Dr. J. E. Budke, R. D. 4, Leesburg, Minn., April 15 and May 2, 1907."

SLEEP KILLED

By an Itching Humor. Another Cure by Cuticura Remedies.

"I broke out with a humor which gripped me at my wits' end. The itching would get worse on retiring so I could not sleep. I tried several remedies but it grew worse. I got Cuticura Soap and Cuticura Liniment which began to relieve me at once. By the time I had used one vial of the Liniment I was sleeping well again. I never suffered so much before. Uncle Sam will smile upon the mountain top!"

It is consoling to think that in days to come, when the episode of the black patch will form a dark blot upon our state history, no woman's name will find a place there.

Ugly deeds are unbecoming in a Christian land and should find no deep seated growth with this fair soul.

WILL MOVE FACTORY.

American to Change From
Clarksville to Nashville.

Clarksville, Tenn., March 23.—The management of the Meriwether branch of the American Tobacco Company, situated in this city, announces that the local plant will be closed down on April 1 and a factory opened in Nashville. This concern manufactures twist tobacco and employs about 150 people with a pay roll of about \$1,000 a week.

Until four years ago it was operated as an independent plant, when it was purchased by the Continental Tobacco Company, which consolidated with the American Tobacco Company. No reason is given for closing the plant.

Henry M. Autlick, the largest tobacco grower in Campbell county, received the following notice through the mail: Don't you raise any tobacco this year. Night Riders."

A card containing the same matter in large print, was posted on each of his three barns. A mound, the usual length of a grave, was raised in the yard near the residence and a note placed on the mound. This is the first threat made against Campbell county growers.

Wm. J. Bryan, the Demo-
cratic Leader.

Washington, March 22.—United States Senator William James Bryan, of Florida, died at the Providence Hospital at 8:30 o'clock this morning of typhoid fever. It was only seventy-three days since he took his seat as the successor of the late Senator Stephen R. Mallory, who died December 23, and thirty-three days of that time was spent in his fight against disease. Several times during Mr. Bryan's illness his friends despaired of his recovery, but as late as last night the report was given out that his condition had taken a turn for the better. His death today, therefore, came as a surprise and a distinct shock.

In Mr. Bryan, the Senate loses the seventh member by death since the adjournment of the Fifty-ninth Congress on March 4th, a year ago. They were the late Senators from Alabama, Mr. Morgan and Mr. Petrus; Mr. Mallory, of Florida; Mr. Latimer, of South Carolina; Mr. Proctor, of Vermont; Mr. Whyte, of Maryland, and Mr. Bryan. Curiously the last two were the oldest and the youngest members of the body. Mr. Whyte was 54 years old and Mr. Bryan less than 32.

Galvani, the hypnotist and mind reader, will be at Holland's Opera House March 25 and 26. His performances are said to be the most wonderful ever seen. Concerning his recent appearance in Parkersburg, W. Va., the Dispatch says:

"Galvani, the hypnotist, who is filling an engagement at the auditorium, is a wonder; he had a large audience last night deeply mystified, and very much interested. He had the house fairly screaming with laughter. The audience Galvani is attracting is not only large, but fine in quality, numbering the most prominent people of this city. He is pronounced by every one as the best entertainer of the kind that has ever filled an engagement in this city."

T. W. Luttrell, a farmer of McCracken county, received a night rider warning significantly wrapped around a match because he, as a member of the County Board Tax-book Supervisors, raised the total assessment of that district \$103 last month.

Move For Martial Law.

Lexington, March 23.—Petitions will be prepared here today calling on Gov. Wilson to declare martial law; at least a part of the lawless tobacco regions and to request the President to send United States troops to put an end to night riding.

The murder in Nicholas county is the cause of the action. Gov. Wilson, who is in Louisville, said last night that only the legislature could declare martial law, and that he did not believe such action would be necessary.

The first instance of plant bed destruction this season in Christian county is reported from Honey Grove neighborhood. Thursday night a plant bed belonging to J. B. Carpenter and his cropper, G. H. Faughn, was dug up with hoes after the bed was ruined. The night riders fired several volleys in the air.

Judging from the tracks they left there were about eight or ten men in the party. Mr. Faughn has been a member of the association for some time, and Mr. Carpenter had signed an agreement to do as soon as the books are open. Neither of them has any idea as to the motive behind the deed.

A magistrate in the northern part of the county was warned to stop drinking by a party who called him out last week, and he promised to abstain. A farmer who visits Paducah frequently was admonished to cease carrying jugs into Calloway. The Princess Virginia

By C. N. and A. M. WILLIAMSON.
Authors of "The Lightning Conductor," "Rosemary in Search of a Father," Etc.

Copyright, 1907, by McClure, Phillips & Co.

[CONTINUED.]

Miss Portman listened, but as she understood only such words of Rhaetian as she had picked up in the last few weeks she could merely surmise that he was ordering the crowd out of his way because he had a special message for the lord chancellor to the burgomaster.

The human wall opened. The man darted through, and Miss Portman was dragged after him by the princess. So close to him had they kept that they might easily be supposed to be under her escort, and, in any case, they passed before them was time to dispute their right way.

"It must be the secretary of Herr Koffman, the new burgomaster!" Virginia heard one man say to another, "and those ladies are with him."

On and on through the crowd passed to the two women who were using him.

There was something about that disagreeable back of his which proclaimed him a man of but one idea at a time.

Close to the front line of spectators, however, there came a check-

"We can't do better."

People were vexed at the audacity of the girl and the elderly woman and would have pushed them back, but at the critical second the blue and silver armored band of Rhaetia's crack regiments came running down the gilded steps and struck up an air which told that the emperor was coming. Promptly the small group concerned forgot its grievance in excitement, crowding together so that Virginia was pressed to the front, and only Miss Portman was pushed ruthlessly into the background, to the great distress of a fair portion of English which nobody heeded unless it were the man who had inadvertently acted as pioneer. At her shrill outburst he turned quickly, as if startled by the sudden cry, and Virginia was so close to him that her chin almost touched his shoulder. For the first time she had a glimpse of his face, which matched the yellow wax of his neck in pallor.

GO RIGHT AT IT.

Friends and Neighbors in Hopkinsville Will Show You How.

Get at the root of the trouble. Rubbing an aching back may relieve it.

But it won't cure it. You must reach the root of it—the kidneys.

Doan's Kidney Pills go right at it; Reach the cause; relieve the pain.

Mrs. Eva Hobbs, living on North Seminary street, Madisonville, Ky., says: "I have no hesitancy in endorsing the claims made for Doan's Kidney Pills, as they are, without doubt, the best kidney medicine in the world. When they permanently cured me of my trouble in the summer of 1903, I allowed my experience to be published in our local papers so that others who suffer as I did might know what course to pursue to get relief. I was a sufferer for years with terrible pains through my kidneys and down through my loins. There were such bearing down pains at times that I actually had to give up and lie down until the pain subsided. The secretions from the kidneys were irregular in action and painful, in passing. I tried remedy after remedy, rubbed my back with liniment, and wore plasters but received little or no relief. Doan's Kidney Pills made a complete and permanent cure four years ago, and it only required two boxes to do it. I have been perfectly free from any kidney complaint ever since."

The girl shrank away from him involuntarily. "What a death's head!" he said, pointing a sly, wicked face and awful eyes! He looked frightened. I wonder why?"

Assured that the sharp cry did not concern him, the man turned to the front again, and having obtained his object—a place in the foremost rank of the procession—he proceeded to take from his breast a roll of parchment tied with narrow ribbon and sealed with a large red seal. As he drew it out and rearranged his coat his hand trembled. It, too, was yellow white. The fellow seemed to have no blood in him.

Virginia, standing now shoulder to shoulder with the man in gray and crimson, had just time to feel a stirring of dislike and perhaps curiosity when a great cheer arose from thousands of throats. The square rang with a roar of royal acclamations. Men waved tall hats, women and girls clapped their hands. Beautifully dressed women grouped on the high decorated balconies waved handkerchiefs or scattered roses from gilded baskets. Women in gorgeous costumes from far-off provinces held up their right hands in greeting, and even a white figure on a white charger came riding into the square under the triumphal arch wreathed with dags and flowers.

Other figures followed—men in uniforms of green and gold and red on coat black horses—but Virginia saw only the white figure, shining wonderfully.

Under the glittering helmet of steel, with its gold eagle, the dark face was clear cut as a cameo, and the eyes were bright with a proud light. To the crowd he was the emperor, a fine, popular, brilliant young man, who ruled his country better than it had been ruled yet by either his father or grandfather, and making a pleasing spectacle for the people, but to Virginia he was far more—an ideal Sir Galahad or a St. George strong and brave to slay all dragon wrongs which might threaten his wide land.

"What if he should never love me?"

Virginia shuddered, though which pierce the pride of him.

The people were proud, too, as he sat there controlling the white war horse, with its gold and silver trappings, the crushed jewels of many orders sparkling on his breast, while he saluted his subjects in his soldier's way.

For a moment there was a pause, save for shouting which died and rose again. Then he alighted, whereupon important looking men with ribbons and decorations came forward, bowing, to receive the emperor. The ceremony of unveiling the statue of Rhaetia was about to begin.

To reach the great crimson draped platform the emperor must pass within yards of Virginia. His gaze flashed over the gay crowd. What if it should rest upon her? The girl's heart was in her throat. She could feel it beating there, and for a moment the tall white figure was lost in a mist which Rhaetia was about to be born.

She had forgotten how she came to this place of vantage, forgotten the pale man in gray and red to whom she owed her good fortune, but suddenly, while her heart was at its loudest and the mist before her eyes at its thickest, she grew conscious again of his presence, and she knew that he stood close by.

She had forgotten how she came to this place of vantage, forgotten the pale man in gray and red to whom she owed her good fortune, but suddenly, while her heart was at its loudest and the mist before her eyes at its thickest, she grew conscious again of his presence. So near her he stood that a quick start, a gathering of his muscles for a spring, shot like an electric message through her own body.

The mist was burnt up in the flame of a strange enlightenment, a clarity of vision which showed not only the hero of the day, the throng and the crowd in all its bustle, but something which was in the soul of that man as well.

"He is going to kill the emperor!"

It was as if a voice spoke the words in her ear. She knew now why she had struggled to win this place, why she had succeeded, what she had to do or die for.

Leopold was not half a dozen yards away and was coming nearer. No one but Virginia suspected evil. She alone had felt the thrill of a murderer's nerves, the tensing of his muscles. She alone guessed what the roll of Leopold's hand meant.

"Now—now," the voice seemed to whisper again, and she had no fear.

While the crowd shouted wildly for "Uncle Leo" a man in gray and red leaped, catlike, at the white figure that advanced. Something sharp and bright flashed out from a roll of parchment, catching the sun in a streak of steel.

Leopold saw, but not in time to avert. The crowd shrieked, rushed forward too late, and the blade would have drunk his life had not the girl who had felt all, seen all, struck up the arm before it fell.

The instant was darkness for her. She knew she was sobbing and that the great square, with its crowded balconies, its ropes of green, its waving flags, seemed to collapse upon her and blot her out.

It was Leopold who caught her as she swayed, and while the people surged around, the wayward murderer the emperor sprang up the steps of the great crimson platform with the girl against his heart.

It was his blood that stained the pure white of his uniform, the blood from her arm, wounded in his defense. "After the service you have done for the country it is your place."

Down there at the foot of the steps the man in gray and red was like a spent fox among the hounds, and Leopold's people in the fury of their rage would have torn him in pieces as the pounds tear the fox despite the corner of police that gathered round him, but the voice of the emperor bade his subjects fall back.

"My people shall not be assassinated!"

He cried to them. "Let the law deal with me. Let me die with my honor. Let me die and unbrighten. Now give your cheers for the lady who has saved my life, and the ceremonies shall go on."

Three cheers had he said? They gave three times three and bade fair to split the skies with shouts for the emperor. White women laughed and

Assured that the sharp cry did not concern him, the man turned to the front again, and having obtained his object—a place in the foremost rank of the procession—he proceeded to take from his breast a roll of parchment tied with narrow ribbon and sealed with a large red seal. As he drew it out and rearranged his coat his hand trembled. It, too, was yellow white. The fellow seemed to have no blood in him.

The girl shrank away from him involuntarily. "What a death's head!" he said, pointing a sly, wicked face and awful eyes! He looked frightened. I wonder why?"

WARNINGS OF DEATH.

Chicago Mayor and Police Chief to Be Shot With Poisoned Steel Points.

Chicago, March 20.—It became known yesterday that sensational letters threatening a novel and hideous form of assassination have been received lately by Mayor Busse, and Chief of Police Shippy and Assistant Chief Schuetter.

The letters inclosed a dozen or more steel points. They were smooth, bright and sharp. The letter to the Mayor was written in a good, regular hand and couched in grammatical, if terrible, terms.

The writer said he was one of a number of persons bound together to kill the Mayor and other officials. A revolver, he said, had been constructed to shoot cartridges composed of steel points, samples which were inclosed.

The shooting would be noiseless and the steel points, the writer said, were dipped in deadly poison. By means of this gun a dose of fatal poison could be shot into the system of the intended victim and death would ensue at once.

Mrs. John B. Waddington and daughters, Misses Pattie and Pocahontas, and son, Mark, left Monday afternoon for Ordway, Colorado, to reside. Mr. Waddington has been in Colorado since December and has decided to make his home in that State. He has some farming interests, but it is understood that his son-in-law, Walter Lester, will run the farm, while he will engage in business in the town of Ordway.

S. M. Bailey left Sunday for Mattoon, Ill., where he will remain until next fall, having spindled employment on a farm near that place.

Sergeant James H. Jefferson, who is here on a ninety-day furlough visiting his parents and other relatives, has enlisted in the regular army for another three-year term.

CHANGED ITS MIND.**L. & N. Will Not Cut Wages of Employees.**

Washington, March 20.—A tip went out here today that the L. & N. Railroad Company has abandoned its intention to cut the wages of its employees. Some time ago the company intimated that it would be obliged to make a cut as a result of the President's policies. The President ordered an investigation by the Interstate Commerce Commission as to whether there is such a condition of traffic as to warrant a cut in wages. The report has not been made public, but the government's inside information is that the company has changed its mind and will maintain the present wage scale.
